

寿司 Go！ | 中文游玩指南

2-5 人 | 3 轮选牌传手。看自己与其他玩家面前的寿司，收集最有利的组合。

准备与选牌

洗牌 108 张牌。每轮按人数发牌：2 人各 10 张，3 人各 9 张，4 人各 8 张，5 人各 7 张。剩余牌面朝下留在中央。

所有人同时从手中选 1 张暗放，随后一同翻开，再把剩余手牌传给左侧玩家。反复进行，直到手牌用完。每轮结算后，除布丁外的牌弃掉，重新发相同数量的手牌。

卡牌计分

天妇罗：每 2 张 5 分；生鱼片：每 3 张 10 分；饺子：1/2/3/4/5 张及以上分别得 1/3/6/10/15 分。

饭团 / 握寿司：鱿鱼 3 分、鲑鱼 2 分、鸡蛋 1 分。已有芥末时，下一张握寿司放在其上，分数乘 3；每张芥末只搭配 1 张。

寿司卷：比较每人寿司卷图标总数。最多者合分 6 分，次多者合分 3 分；第一名并列时不颁第二名分数。并列分数平均分配，余数舍去。

筷子：打出后的后续某个选牌回合，可拿 2 张牌，再把筷子放回手中传走；筷子本身 0 分。

布丁与胜负

布丁跨轮保留，在第三轮结束后计分。最多者平分 6 分，最少者平分负 6 分；所有人数量相同时无人得失分。双人局不扣最少者的分。

三轮总分最高者获胜；同分时布丁较多者胜出。若使用双人虚拟玩家变体或改变传牌方向，请赛前商定。

本中文说明为本站依据所列原版规则整理的游玩指南。卡牌文字与特殊情况以牌面及原版规则为准。

SUSHI GO!

RULES OF PLAY

GAMERIGHT®

CONTENTS

108 CARDS

14x Tempura	10x Salmon Nigiri
14x Sashimi	5x Squid Nigiri
14x Dumpling	5x Egg Nigiri
12x 2 Maki rolls	10x Pudding
8x 3 Maki rolls	6x Wasabi
6x 1 Maki roll	4x Chopsticks

SETUP

- Shuffle all the cards well and deal the following, depending on the number of players:

In a **2 player** game, deal **10 cards** to each player.
In a **3 player** game, deal **9 cards** to each player.
In a **4 player** game, deal **8 cards** to each player.
In a **5 player** game, deal **7 cards** to each player.

(Hold your cards in your hand, secret from opponents.)

- Place the rest of the cards in a face-down pile in the center of the playing area.
- Grab a piece of paper and pencil to keep score and designate one player as the scorekeeper.

HOW TO PLAY

PLAYING A ROUND

The game takes place over 3 rounds. To start a round, all players simultaneously choose any 1 card from their hands that they would like to keep and place it face-down in front of them. When each player has done this, everyone reveals their chosen cards.

After revealing cards, pass your remaining hand face-down to the player on your left. Everyone picks up their new hands and the next turn begins. You now have a new and smaller hand to choose from.

NOTE: Face-up cards remain with you until the end of the round, when they are scored. It is helpful to group cards of the same type together.

USING WASABI

If you choose a squid, salmon or egg nigiri card, and already have a wasabi card in front of you, then this nigiri must be placed on top of the wasabi. This is to show that the nigiri has been dipped in wasabi and has tripled in value!

NOTE: You may have multiple wasabi cards in front of you but only 1 nigiri card may be placed on each wasabi card.

USING CHOPSTICKS

If you already have a chopsticks card in front of you, you may take 2 sushi cards on a future turn!

Here's how it works: Choose the first card you would like from your hand as usual. Before everyone else reveals their cards, call out **"Sushi Go!"** and take a second card from your hand, also placing it face-down on the table. Then all players reveal their cards.

Before passing hands, put the chopsticks card back into your hand. This means it will now be passed on, and other players may take it to use again.

NOTE: You may have multiple chopsticks cards in front of you but may only use 1 per turn.

ENDING A ROUND

When the final remaining card of each hand is passed on, simply place it face-up with the other cards you have collected. (Often this final card won't be of much use, but sometimes an unfortunate player will be forced to leave you with something valuable!)

Now score the cards you have collected, as follows:

SCORING

MAKI ROLLS

Each player adds up the maki roll icons at the top of all their maki roll cards. The player with the most icons scores **6 points**. If multiple players tie for the most, they split the 6 points evenly (ignoring any remainder) and no second place points are awarded.

The player with the second most icons scores **3 points**. If multiple players tie for second place, they split the points evenly (ignoring any remainder).

Example: Chris has 5 maki roll icons, Phil has 3, Amy has 3 and Lisa has 2. Chris has the most and so scores 6 points. Phil and Amy tie for second place, and so divide the 3 points between them, scoring 1 point each. Lisa scores nothing.

ROCK 'N' ROLL
WE GOT THE 6
POINTS!

THAT'S HOW
WE ROLL!

...REALLY ROLLING
WITH LAUGHTER
HERE GUYS.

TEMPURA

A set of 2 tempura cards scores **5 points**.
A single tempura card is worth nothing. You may score multiple sets of tempura in a round.

SASHIMI

A set of 3 sashimi cards scores **10 points**.
A single sashimi card or a set of only 2 is worth nothing. You may score multiple sets of sashimi in a round, although this is very hard to do!

DUMPLINGS

The more dumpling cards you have, the more points you will score, as follows:

Dumplings:	1	2	3	4	5	or more
Points:	1	3	6	10	15	

WE WE'RE TRYING TO COLLECT 3 SASHIMI CARDS BUT THE GUY NEXT TO US KEPT THE LAST ONE!

RAW DEAL, MAN.

NIGIRI AND WASABI

A squid nigiri scores **3 points**.
If it is on top of a wasabi card it scores **9 points**.

A salmon nigiri scores **2 points**.
If it is on top of a wasabi card it scores **6 points**.

An egg nigiri scores **1 point**.
If it is on top of a wasabi card it scores **3 points**.

A wasabi card with no nigiri on it scores **nothing**.

CHOPSTICKS

A chopsticks card scores **nothing**.

STARTING A NEW ROUND

- Announce your scores from the previous round for the scorekeeper to record.
- Discard your cards face-up beside the draw pile. The only exceptions are **pudding cards** which you keep in front of you to be scored at the end of the game.
- Deal every player another hand of cards from the draw pile, equal to the amount from the last round.

ENDING THE GAME

After the third round is scored, there will be some cards remaining in the draw pile. These are ignored. Now it's time for dessert! Pudding cards are now scored.

PUDDINGS

The player with the most pudding cards scores **6 points**. If multiple players tie for the most, they split the points evenly (ignoring any remainder).

The player with the fewest pudding cards (including players with none) **loses 6 points**. If multiple players tie for the least, they split the lost points evenly (ignoring any remainder).

Example: Chris has 4 pudding cards, Phil has 3 and Lisa and Amy each have 0. Chris has the most and so scores 6 points. Lisa and Amy tie for the least and so divide the lost 6 points between them, each losing 3 points.

On the rare occasion that all players have the same number of pudding cards, no one scores anything for them.

NOTE: In a 2 player game, no one loses any points for puddings. Only the points for most pudding cards are awarded.

AND THE WINNER IS...

Whoever has the most points after 3 rounds is the winner. In case of a tie, whoever has the most pudding cards wins!

VARIANTS

PASS BOTH WAYS

To change how the players interact, simply alternate which way you pass the cards each round. In rounds 1 and 3, pass each hand to the left. In round 2, pass each hand to the right.

TWO-PLAYER VARIANT

This variant features a third “dummy” player that alternates between players.

- Deal 3 players worth of cards (3 hands of 9).
- Put the dummy player's cards face down between you as a draw pile.
- Choose one player to be the first to control the dummy player.
- When you're in control, draw the top card from the dummy pile and add it to your hand.

- Then choose 1 card for yourself and 1 for the dummy player.
(Your opponent plays 1 card as normal.)
- Reveal cards and then switch hands, leaving the dummy pile in place.
- Now your opponent controls the dummy player by drawing from the pile and then choosing 1 for themselves and 1 for the dummy.
- Take turns controlling the dummy pile until all cards are played out.
- Play 3 rounds as described above, scoring as per normal rules.

CONGRATULATIONS, YOU WON
THE GAME! HOW ABOUT I TAKE YOU
OUT FOR DESSERT TO CELEBRATE?

OH, YOU ARE
JUST TOO SWEET!

A WORD FROM GAMEWRIGHT

We're huge fans of eating sushi here at Gamewright HQ, so it came as little surprise that we instantly fell in love with this "delicious" sushi-themed card game. Inventor Phil Walker-Harding created a unique and immediately approachable take on "card drafting" that makes for a game that's easy to learn, quick to play, and yet engaging for all ages. Just like a great meal at a sushi bar, this game will have you coming back for more time and time again!

Game by Phil Walker-Harding

Illustrations by Nan Rangsim

Special thanks to Peter Kinsley for the 2 player variant
